Panel Discussion

What's Keeping Supply Chain Professionals Up at Night

Tuesday October 3, 2017

Hear first-hand what is hindering supply chain excellence at user companies. This panel can help you find out what your customers are struggling with on a day-to-day basis.

Today's Panelists: *What's Keeping Supply Chain Professionals Up At Night*

Panelists: Please introduce yourselves and provide an overview of your company, your current role, and your background

Charlie Torok

VP of Logistics
Shoe Carnival

Bill Best

Divisional Vice President
Supply Chain Operations
REI

Judi Griffin

Director of Logistics
Burkhart Dental Supply

Questions for Panelists

- In line with the panel title... What's keeping you up at night?
- From the customer standpoint... How are your customer demands changing, and how is this affecting your vision?
- There is a lot of talk about digital, IoT, etc. – what does “digital” mean to your company? How do you envision becoming “digital”?
- As your organization evolves, where do you find the largest organizational capability gaps today? Why has it been a challenge to find the right skillsets to address those gaps?
- What processes have been the least efficient / effective? What are the root cause(s) of issues, and how have you determined those causes?
- Where do you see biggest opportunities or gaps to drive savings, enable improvements, etc.?
- How are you navigating this myriad of technologies / solutions to make sense of all the possibilities for your organization in logistics & distribution space?
- What's your vision for your operations?
