

“Steel Service Center uses
Stacker Crane to improve
shipping performance”

Features and Benefits

Cab Operated

360° Rotation

Interlocking Cranes

Industry Group: Monorail Manufacturers
Association, Inc. (MMA)

“We needed to find a competitive edge and LOUDEN came through.”

This custom designed LOUDEN crane system is equipped with transfer sections to move the stackers between any of the four 64-foot-wide-bays for full coverage of the 500 foot long warehouse.

With a working force of only 5 warehouse people, Coutinho, Caro & Company Incorporated handles 10,000 tons of steel per month at its Compton, California, warehouse. As many as 65 delivery trucks a day are turned around at a rate of 15 to 20 minutes per load. The industry averages from 1 to 3 hours per truckload.
