

SOLUTIONS COMMUNITY MISSION & VISION STATEMENT

Mission:

To engage the material handling community through education, networking, and collaboration.

Vision:

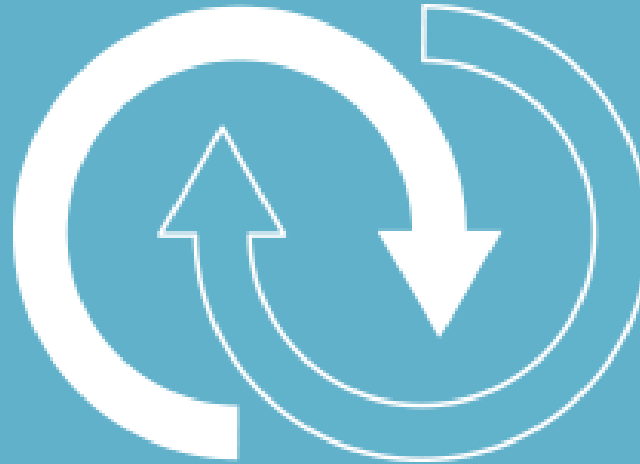

To advance the material handling industry.

VALUE STATEMENT

To Solutions Community Customers

Solutions Community members are Industry's thought leaders on automation, software, hardware, equipment and services that support a fully integrated supply chain. This includes suppliers, integrators, consultants, media, academia and users. They collaborate on solutions worldwide and in virtually every major manufacturing and distribution sector.

The philosophy of the Solutions Community is to support MHI's mission of providing a unique venue where suppliers of material handling equipment and technology can collaboratively work with the user community to improve the marketplace for all. All participants adhere to a safe harbor no-buy, no-sell environment to openly discuss topics of mutual interest, including best practices, lessons learned and other information.

To Solutions Community Members

Collaborate to positively impact the industry

Connect with peers, users, academia, and media

Exposure to media outlets and potential customers
