CONVEYORS

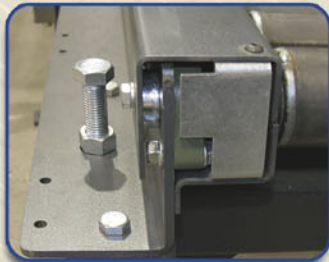

M.J. MAILLIS

WULFTEC.com

Wulftec has built a solid reputation on being experts in the conveyor industry with multiple conveyor solutions for all industries. Having a Wulftec® conveyor on the production line is a powerful statement. It's an investment in strong values because Wulftec is dedicated to manufacturing only the best. It's an investment in all steel construction, for increased stability and strength. It's an investment in success, because Wulftec® equipment is designed and built to last load after load, year after year.

Featuring:

STATE-OF-THE ART CONSTRUCTION

- ¼" thick side rails
- All rollers driven roller to roller with #40 chain
- Maintenance free cast iron housing sealed bearings
- Adjustable structural steel leg assemblies
- Interchangeable feet to allow pass height changes
- Fully enclosed, guarded chains, top and bottom
- Fully enclosed, top and bottom chain guard and drive system guard
- One side driven, for easy loading and unloading
- 5,000 lbs capacity
- Best warranty in the industry (3 years)

ADJUSTABLE DRIVE SYSTEM

- Easy to adjust without guard removal
- Access from top of conveyor
- Drive unit mounted below conveyor guard for more protection
- Easy access to the drive unit from top, side or bottom
- Synthetic gearbox lubrication
- All quick disconnect wiring for easy installation & maintenance
- 1 HP - 230 / 460 VAC TEFC motor
- 30 FPM, up to 60 FPM available

ROBUST ROLLER FEATURES

- 3/16" wall tubing
- 2½" dia. rollers on 3" centers
- One piece stub shafts machined from solid steel bar
- Hardened sprocket teeth
- 1" diameter bearing shaft
- Full weld around circumference of tube
- Tubing machined at both ends to ensure concentricity

VERSATILITY

- 24 VDC components
- Non-proprietary parts throughout
- Variety of lengths, widths and heights available
