ASRS ARCHIVE MODULES

EGA Products designed and manufactured these ASRS Archive Modules to interface with the automatic storage & retrieval system (ASRS) inside the library of one of America's leading universities, doing so cooperatively with an internationally renowned manufacturer of logistics and materials handling solutions.

The module shelves must be precisely aligned to accommodate ASRS robotics reliably, a design element that is complicated by the requirement that the shelves be adjustable within precise parameters. This is why the manufacturer turned to EGA manufacturing expertise to build the modules with precise spacing to specified tolerances.

If We Can Do This For Them, What Might We Do For You?

Rely on EGA precision engineering and manufacturing expertise to design and build custom racks like these, and other equipment that will meet the specific people-access, materials-handling, or storage needs of your industry and its processes—no matter how simple or complex your requirements.

[LEARN MORE](#)

Besides library settings, these ASRS Archive Modules can be used in a wide range of ASRS environments where irregular objects must be accommodated, including but not limited to:

- › Automotive
- › Food
- › Manufacturing
- › Metalworking
- › Shipping
- › Military/government

These ASRS Archive Modules feature boltless construction. They are available with stainless steel construction or come in a variety of finishes, including:

- › Painted enamel
- › Powder coat
- › Hot-dipped galvanized
- › And more

Typical industrial applications:

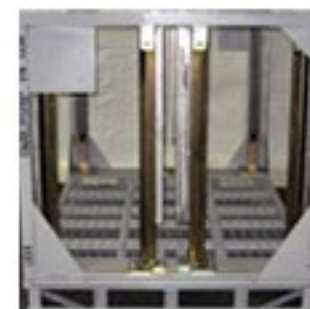

Automotive, food, manufactured goods, metalworking, military/government, shipping

Carousel Racks

Shipping & Receiving Packaging Benches

Indexing Tower Racks

Custom Operations Platforms

Returnable Equipment Racks (Non-Collapsing)

Galvanized Industrial Stairways & Landings

Returnable Equipment Racks

Flat Media Tray Carts

Custom Storage Lockers

Portable Bin Cart Modules

Portable Storage Modules

Collapsible Bins

ASRS Archive Modules

Returnable Bumper Racks

Person-Aboard Order Picking Modules

Assembly Floor Work Platforms

Purpose-Built Platform Trucks
