Manufacturers of Material Handling and Storage Equipment

CUSTOM FABRICATION

**PERFORMANCE
BY DESIGN**

RETURNABLE EQUIPMENT RACKS (COLLAPSING)

Custom designed and manufactured for Tier One suppliers to the automotive industry, these **Collapsing Returnable Equipment Racks** offer large capacities for storing and transporting components such as mufflers, catalytic converters, and suspension pieces but automatically fold down for economical return shipping when the last part is removed.

Absence of the last part instigates a controlled collapse of the rack, allowing for its fast and easy removal from the workspace and clearing the way for the next rack—enhancing your time/motion workflow efficiencies.

If We Can Do This For Them, What Might We Do For You?

Rely on EGA precision engineering and manufacturing expertise to design and build custom racks like these, and other equipment that will meet the specific people-access, materials-handling, or storage needs of your industry and its processes—no matter how simple or complex your requirements.

LEARN MORE

EGA Returnable Equipment Racks can accommodate multiple dunnage systems.

Multiple dunnage systems can be incorporated into each rack that precisely fit the shapes, sizes, and proprietary requirements of your parts:

- Rubber
- Vinyl
- Polyurethane
- Polyurea
- UHMW
- HDPE
- Stainless steel
- And others

EGA Returnable Equipment Racks are offered in a variety of finishes, including:

- Painted enamel
- Powder coat
- And more

Typical industrial applications:

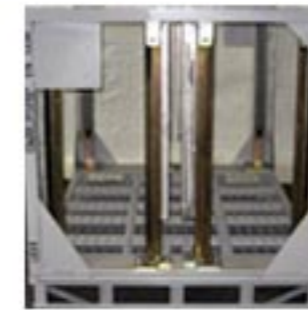

Automotive, manufactured goods, metal-working, military/government, plastics, shipping, steel, textiles, pulp/paper, energy
