

Concrete Problems

- Can't roll carts on damaged concrete
- Expensive replacement costs

Concrete mezzanine flooring with significant damage prior to ResinDek®

Heavily loaded pallet trucks caused failure of both concrete and B-Deck

"We are grateful for the ingenuity and support provided by Daigle Engineers and Cornerstone Specialty Wood Products. And now that we know about ResinDek® and its added benefits with savings we will be considering ResinDek® instead of concrete for future projects."

is the
Rework Solution
for Mezzanine Floors!

ResinDek® Rework Solutions

ResinDek® panels can easily be installed in place of or over troubled flooring surfaces such as:

Delaminating, cracking & peeling floors

Cracked, spalling & uneven concrete

Deformed and damaged bar grate & plank grating

Worn-out plywood

ResinDek® installed over damaged concrete

Delamination Problems

- Trip hazards for workers
- Low productivity
- OSHA violations
- Worker's Compensation claims

ResinDek® installed in place of peeling decking

Bar and Plank Grating Problems

- Very noisy using carts or pallet jacks
- Not suitable for workstations or rolling traffic
- Objects and debris fall thru the floor
- People and product below affected by falling debris
- Causes trip spots

"We feel like we hit a home run by using ResinDek® Xspan®. We have a new mezzanine and a material handling platform the employees are more comfortable working on, and we have saved a substantial amount of money. Using ResinDek® products seems to be a no-brainer at this point."
