

Are You Sure You Need Concrete for Your Mezzanine Floor?

An engineered panel made just for mezzanines can now provide the strength you associate with concrete.

ResinDek® not only easily replaces concrete for moving and storing loads; it SAVES you thousands of dollars with added benefits.

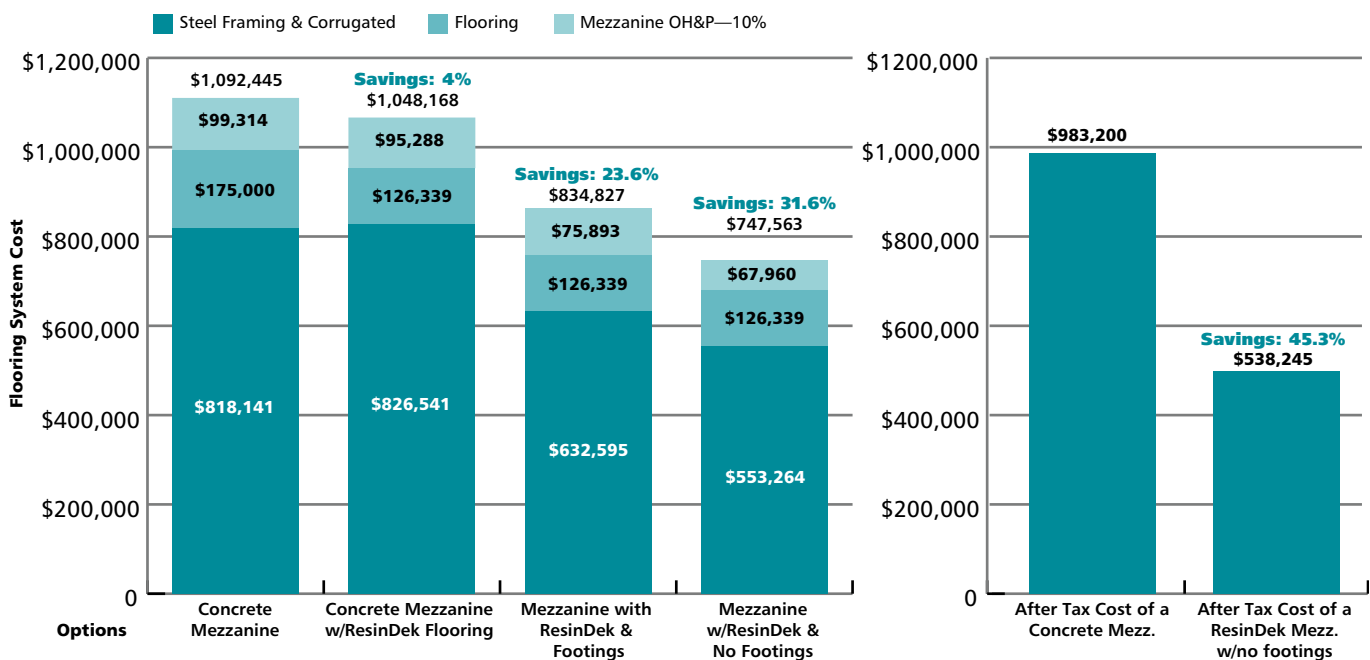

Let's do the math:

Deck Surface Savings	\$1.00
Reduced Steel & Labor Savings	\$4.15
Favorable Tax Treatment Savings	\$3.75

Total potential after tax savings by using ResinDek Mezzanine decking instead of concrete **\$8.90/sf.***

*Tax benefits are based upon estimates and the ability to categorize the mezzanine as equipment rather than a part of the building structure. PLEASE consult local building codes and your tax advisor before using any information provided.

Switching To ResinDek = Value Engineering Opportunities With Large Potential Savings!

Lighter weight, more flexible ResinDek mezzanine flooring eliminates steel structure and footings.

Concrete mezzanine floors require massive amounts of extra steel and footings driving up costs.

ResinDek[®] Benefits:

- Ergonomically friendly
- Easy to keep clean
- Proven 10-year product warranty
- Can qualify for LEED[®] certification points
- Expensive footings can often be eliminated saving time and money
- ResinDek mezzanine floors are warranted up to 8,000 lbs. per pallet jack

“ResinDek[®] has a surface that is more ergonomic, cleanable and light reflective than concrete. Our associates are more comfortable working on a ResinDek[®] surface than on a concrete deck. We plan to use ResinDek[®] on all of our future expansions!”

Tim Kelley, Director of Corporate Facilities-Dell Computers

ResinDek[®] panels consist of recycled content and are eligible for LEED[®] credits.
