

Leader in Nuclear Material Handling Equipment

Cranes, Hoists and Specialized Lift System Systems

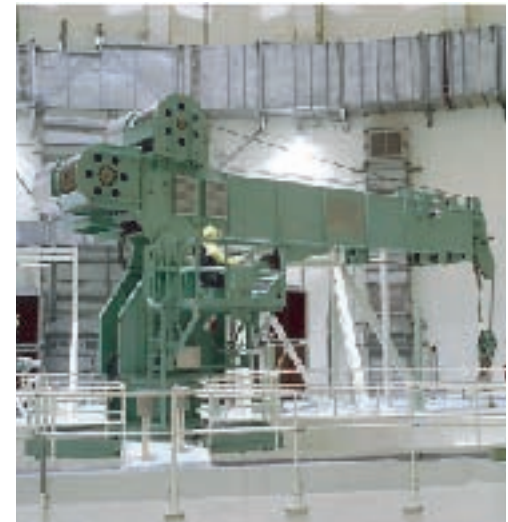

- Single Failure-Proof Cranes (ULTRASAF™)
- Fuel Re-racking Equipment
- Remotely Operated Cranes and Grapples
- Specialized Material Handling Equipment
- Crane Upgrades and Trolley Replacements
- Control System Modernization
- Outage Jib Cranes
- SAFLIFT™ Cask Handling System
- Automated and Computerized Cranes
- Top Running, Underhung and Gantry Cranes
- Full Range of Hoists

125 Ton Nuclear Fuel Handling Crane

Total Project Capabilities

- Large In-house Engineering and Design Team
- Expanded Modern Manufacturing Facility
- Seismic Analysis
- 200 Ton In-House Load Test Facility
- NOA-1 and 10CFR50 Appendix B Quality Program
- Full Range of Site Services
- Long Term Maintenance Support

Telescoping Jib Crane
