

# OVERHEAD CRANES

KEEPING INDUSTRY ON THE MOVE

Whiting

## Whiting

▼ The Whiting name has been a trusted name in the overhead crane industry for over 100 years. Each Whiting crane is custom designed and built to your exact specifications, ensuring durability, reliability and satisfaction. All of our overhead cranes are proudly assembled in our ISO-9001 certified facility near Chicago, Illinois, U.S.A., while adhering to the strictest quality standards.

## WHITING'S SPECIALTY IS THE DESIGN AND MANUFACTURE OF CUSTOM BUILT OVERHEAD PROCESS CRANES.

Our mechanical, structural, electrical and analytical engineering teams design and produce heavy-duty overhead cranes that will meet virtually any industry challenge and will perform in even the toughest environments. Whiting cranes serve a variety of industries, including steel mills, automotive plants, foundries, fossil fuel plants, metal service centers, refuse facilities, hydro-electric plants and nuclear power plants.

Whiting is an expert in the design and manufacture of nuclear reactor servicing cranes, used for handling critical loads. Three out of every four nuclear power generating plants in the United States has at least one Whiting crane—a testament to our knowledge and capabilities within the nuclear industry.

## COMMITMENT TO CUSTOMER SATISFACTION

Our experienced and knowledgeable engineering, sales, and service teams are always available to support you in every step of the decision-making, purchasing and after-sale and service activities. With years of combined experience, our sales and engineering teams will ensure that your questions are answered in a timely manner and that your exact requirements and specifications are met.

Our service group, Whiting Services, further cements the great relationships we build with our customers by providing a comprehensive variety of services necessary to keep your overhead cranes operating at maximum efficiency—from installations and training to inspection programs, maintenance and modernizations. And if you need crane replacement parts, look no further than Whiting. Our full-time, full-service parts department provides OEM parts for Whiting overhead cranes, as well as parts for all other crane manufacturers.

Our facility is a fully-equipped, integrated manufacturing facility with a complete machine shop for material preparation, fabrication, machining and component assembly and testing.

## INVOLVEMENT IN THE INDUSTRY COMMUNITY IS VERY IMPORTANT TO WHITING

We participate in and actively support several industry associations, including:
