

## Specialized Doors

HECO Pacific Mfg. Inc. has designed and built many specialized doors for harsh environments. Many of these doors had to be designed to withstand hurricane wind loads. In addition to the large doors we have also supplied blast doors for certain highly technical projects. Here are some of the features of the doors:

- ◆ Fail Safe Design
- ◆ AC Controls
- ◆ Intrinsically safe controls mounted in a remote control room
- ◆ FMECA (Failure Design Review)
- ◆ Emergency Movement without Power
- ◆ Redundant Drives
- ◆ Automated controls with PLC and motion controller
