

Column Sentry®

FIT

When it all comes together

Twenty years ago, Sentry Protection Products invented Column Sentry® and the idea of industrial column protection was born. It was a revolutionary idea – surround columns with a cushion of air to reduce collision damage and improve safety and maintenance. After protecting thousands of columns with Column Sentry, the company is again redefining the category.

Always on guard

Introducing Column Sentry® FIT – a multi-size column protector that preserves all the outstanding performance features of the original Column Sentry® with some revolutionary twists.

Revolutionary new design

- Adjusts to fit multiple column sizes
- Streamlined for a reduced footprint
- Four-sided, uniform protection
- Interlocking sides guarantee a snug fit around the column

New VELCRO® fasteners

- Improved holding power and strength

Patented air chamber

- Like the original Column Sentry, Column Sentry FIT features the patented air chamber to deflect impact energy away from the column and minimize the force of tow motor impact

Easily installed

- No tools necessary

* Currently, Column Sentry FIT adjusts to cover 8" to 12" columns. Future sizes will cover larger and smaller columns
