

JDN SUPRA-LOW MONORAIL HOISTS

"Supra" Strength for Small Spaces From 4 Ton to 100 Ton Capacity, Air Pressure 85 PSI (6 Bar)

In locations with very restricted headroom, JDN Supra-Low Headroom Monorail Hoists lift and transport loads up to 100 ton. Their special design gives them access to areas where standard hoist trolleys, even low head configurations, are unable to meet your needs.

FEATURES

- Special load chain guiding system to prevent side plate bending – a unique design
- Lowest headroom in its capacity range
- Trolleys feature anti-drop and anti-climb device
- High efficiency, multi-vane drives for the hoisting and travelling section
- All steel and cast iron design for highest performance in harshest environments
- Explosion-proof
- Positive start-up system to enable a smooth motor operation

OPTIONS

- Chain container
- Offshore paint
- Spark-resistant package
- Delta-P overload protection

APPLICATIONS

- Oil industry:
BOP handling on oil and gas drilling rigs.
- Paper mills:
Handling of drying rollers in tight restricted areas on top of the production line.
- Maritime Industry:
Piston-pulling and handling components of engines or gearboxes in tight areas of ship engine rooms.
- Newspaper Industry:
Handling rollers in printing presses, installation of printing presses.
