

## STANDARD FEATURES

- Bright chromed zinc finish.
- High strength double ball, hardened swivel raceways for long caster service life.
- Roller bearing wheel and 1/2" nut & bolt axle with grease zerk fitting.
- All swivel casters have a unique upper race which also serves as a dust cover to block out contaminants.
- Total-Lock and 4-Position Swivel-Lock available.

These casters offer a unique combination of high load capacity with a trailing end Total-Lock brake or a Directinal-Lock. Their load capacity is exceptional for a top plate with bolt hole spacing of 1<sup>3</sup>/<sub>4</sub>" x 3". Ideal for food handling and processing equipment, mobile tool chests and work benches, platform and stock trucks, carts and dollies, laundry and refuse hampers and trucks, and more. Optional threadguards keep threads and such away from the axle and help improve the overall appearance.

Dust Cover
