

POWDER COATED DRUM DOLLIES

STANDARD FEATURES

- Heavy duty steel construction
- Spotwelded for extra strength
- Gray powder coat enamel finish. Other colors available when ordered in quantities of 25 or more
- The five outriggered casters provide a wider stance and shorter distance between wheels for extra stability
- Center plate mounting holes available for a sixth caster for point load applications on 5-wheel dollies

Drum dollies add mobility to heavy duty industrial drums and enable these drums to be used as containers for scrap metal, liquids, parts, and refuse. 4-wheel dollies have a spotwelded cross braced frame for extra strength. 5-wheel dollies provide better stability and a higher load rating. Chart with dimensions on the back page.

4-Wheel Drum Dolly with 3" x 1 1/4" Polyolefin Wheels

5-Wheel Drum Dolly with 5" x 2" Polyolefin Wheels

5-Wheel Drum Dolly with 3" x 1" Semi-Steel Wheels
