

NORTH AMERICA **OVERVIEW**

Bonfiglioli designs, manufactures and distributes the widest range of gearmotors, drive systems, planetary gearboxes and inverters.

SOLUTIONS FOR EVERY MARKET AND APPLICATION

Bonfiglioli products are used in an **endless number of applications**. If it needs to move, we make a product that can make it move with the **perfect amount of power, speed and precision**. Conveyor systems, construction equipment, material handling vehicles, waste water treatment systems, packaging lines, cranes, wind turbines and more are driven by Bonfiglioli products. Nearly every aspect of our daily lives – from the food we consume to the roads we drive on to the light that illuminates our homes – is impacted by our **extensive product line**.

Our solutions keep the world in motion.

PRODUCTION

100,000
UNITS SHIPPED
PER YEAR

80,000
SQ. FT. FACILITY

120+
EMPLOYEES

The North America headquarters, located in Hebron, KY, produces a number of products for **light to heavy-duty industrial applications**, as well as **construction machinery**.

Industrial Gearmotor Assembly

The industrial gearmotor line assembles **helical, helical bevel, planetary and worm gearmotors** for applications such as packaging, material handling, mining, waste water treatment, recycling and a wide array of other industrial applications.

The **hydraulic gearmotor line** produces the Bonfiglioli 700 Series gearmotor for the compact track loader market. Finished products are packaged in specially-designed, reusable crates and shipped by dedicated carrier for 1-2 day transit.

Hydraulic Gearmotor Line

All production processes match Bonfiglioli's **strict standards to ensure the same precision and quality of our products worldwide**. Custom painting to match customer applications is available.

OPERATIONS

ACCOUNT MANAGEMENT & SALES

Experienced team with extensive industry and product knowledge who work side-by-side with customers to help develop the perfect solution for their application.

CUSTOMER SERVICE

CSRs dedicated to accounts and territories provide quotes, order entry, order updates, delivery status, problem resolution and more.

CUSTOMER APPLICATION ENGINEERING

Talented team of mechanical and electrical engineers who provide product design and technical consultation for product development.

PLANT OPERATIONS

Comprehensive operations including production, assembly, tooling, shipping, receiving and inventory control.

DISTRIBUTION

Distribution hub for shipping and order fulfillment for all customers and authorized distributors in North and Central America.

QUALITY CONTROL

Conducts regular quality checks using on-site CMM and other state-of-the-art equipment to ensure products meet all company and industry standards, including ISO 9001:2015.

AFTER SALES

In-house team provides after-sales support such as field service, repair, maintenance and warranty service.

Bonfiglioli is a worldwide designer, manufacturer and distributor of a complete range of gearmotors, drive systems, planetary gearboxes and inverters, which satisfy the most challenging and demanding needs in industrial automation, mobile machinery and renewable energy. Bonfiglioli serves more industries and applications than any other drive manufacturer and is a market leader in many sectors. Established in 1956, Bonfiglioli operates in 21 countries, with 14 production facilities and over 3,700 employees worldwide. The North American headquarters, located in Hebron, KY, employs over 120 people and provides sales, customer service, engineering, technical support, plant operations, after-sales support and quality control to customers in North and Central America.
