

ProShip® Momentum for Microsoft Dynamics AX and NAV

A NATIVE MULTI-CARRIER SHIPPING AND MANIFESTING SOLUTION

ProShip Momentum is a native Microsoft Dynamics AX and NAV shipping and manifesting solution with the fastest, most certified carrier compliant services on the market.

Features and Benefits

- A **quality** choice when it comes to maximizing efficiencies in the supply chain.
 - o Speed - fastest carrier rating engines in the industry.
 - o Native solution - allows packing, rate shopping, shipping, tracking, AES Direct (international) and more, all embedded within Microsoft Dynamics AX and NAV.
 - o Implementation - a unified, single streamlined process with clear handoffs and deliverables, from sales to deployment to support.
 - o Reliability - updates and business rule application are completed without downtime. Reliability is also ensured by powerful version control using GIT.
- Enforces **hazmat/dangerous goods compliance**.
- Most comprehensive **analytics and reporting tools** allowing real-time, 360 degree visibility through the entire shipping process.
- **Automates** business rules unique to your company.
- Utilizes standard **Microsoft Dynamics AX and NAV process flow** and functionality, plus ProShip Momentum screens.
- **Multiple user interfaces** for all your locations allow you to leverage your existing technology - Microsoft or other host systems (ERP, WMS, e-commerce, TMS) - into one integrated solution (ProShip Momentum, Velocity and Office).

Multi-Carrier Compliant

ProShip is an industry leader in shipping software for domestic and international shipments, handling all small parcel, LTL, TL, Air and Ocean.

ProShip® Momentum for Microsoft Dynamics AX and NAV

A NATIVE MULTI-CARRIER SHIPPING AND MANIFESTING SOLUTION

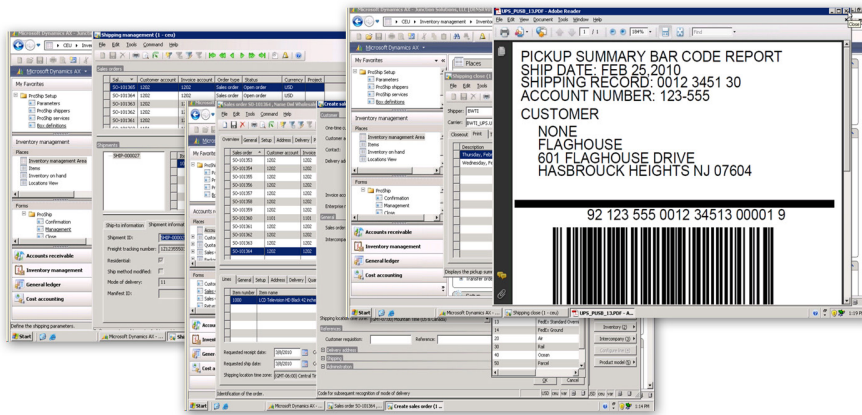

Why ProShip?

Due to its superior versatility, ProShip software caters to a wide variety of global businesses, professions and applications.

- Operations professionals choose ProShip for its ability to create efficiencies in the supply chain, reduce costs and optimize order visibility.
- IT professionals choose ProShip for its ease of integration, reliability and exceptional support.
- Customer service and sales professionals endorse the ProShip choice for its reliability, order visibility and ability to create happy customers.

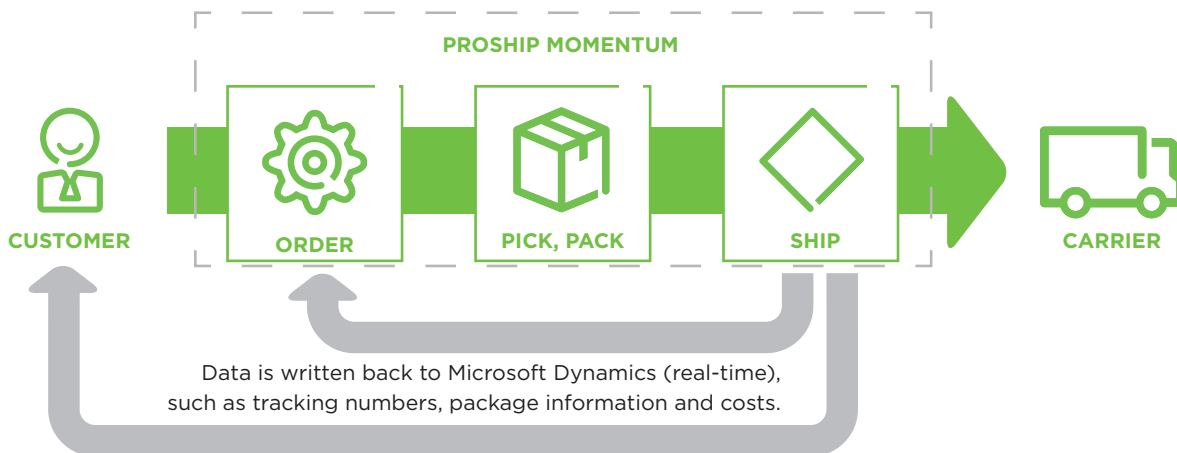

“With revenue growth up consistently year over year, we can rely on Microsoft Dynamics NAV and ProShip to scale with the business. Our employees can now be extremely effective, even with increased workloads. We found this out immediately after the implementation when our order volume skyrocketed and we still shipped product out the door very quickly.”
