

# ProShip® MPH for Oracle EBS

A NATIVE MULTI-CARRIER SHIPPING AND MANIFESTING SOLUTION

ProShip MPH is a native Oracle EBS shipping and manifesting solution with the fastest, most certified carrier compliant services on the market.

## Features and Benefits

- A **quality** choice when it comes to maximizing efficiencies in the supply chain.
  - o Speed - fastest carrier rating engines in the industry.
  - o Native solution - allows packing, rate shopping, shipping, tracking, AES Direct (international) and more, all embedded within Oracle EBS.
  - o Implementation - a unified, single streamlined process with clear handoffs and deliverables, from sales to deployment to support.
  - o Reliability - updates and business rule application are completed without downtime. Reliability is also ensured by powerful version control using GIT.
- Enforces **hazmat/dangerous goods compliance**.
- **Automates** business rules unique to your company.
- Oracle EBS native **peripherals integration** includes scales, thermal/laser printers and scanners.
- Utilizes standard **Oracle EBS process flow** and functionality, plus ProShip MPH screens.
- **One single platform** using Oracle EBS workflows makes training easy.
- Oracle EBS native track and trace for **shipment visibility**.
- **Multiple user interfaces** for all your locations allow you to leverage your existing technology - Oracle EBS or other host systems (ERP, WMS, e-commerce, TMS) - into one integrated solution (ProShip MPH, Velocity and Office).

## Multi-Carrier Compliant

ProShip is an industry leader in shipping software for domestic and international shipments, handling all small parcel, LTL, TL, Air and Ocean.
