

The safest, most efficient way to handle pallets.

This is “the better way”

You knew there had to be a better way, right?

The patented **Pallet Return Device** gives you a perfect stack every time with less strain on your back and a lower risk of falling pallets.

The **PRD** mounts to your existing pallet flow rails in picking modules and doesn't use any external electricity or compressed air. This unique system can handle wood or plastic pallets simultaneously and be retrofitted to any facility. See how the **Pallet Return Device** can save you labor costs and time, while providing that perfect stack every time.

Pallet Return Device | 810 Hwy 51 East | PO Box 227 | Stoughton, WI 53589 USA

U.S. Patent No. 9,120,630

“No more worries from twisted or bad stacks getting hung up on the rack frames...”

FEATURES

- Pallet carriage **tilts backward** making loading safe & easy.
- Designed to **straighten** each pallet that is loaded.
- **Pallet release stops [A]** allow for use with wooden and plastic pallets.
- Easy-to-use **hand and foot releases**.
- **Solid wheel [B]** for the first receiver roller withstands impact of pallets.
- **Shock absorbing device [C]** safely tilts carriage when unloading.
- **Raised receiving end** lifts pallets off the carriage for easy resetting.
- **UHMW wear pads** prevent metal-on-metal contact.
- Recessed **bilingual safety label** clearly explains proper loading method.
- **Optional flashing strobe** alerts forklift driver a full stack is ready for pickup.*
- Constructed with long-lasting, powder-coated **heavy gauge steel**.

*Strobe requires 24V AC

BENEFITS

- **Ergonomic Advantage.** An easier way to handle pallets that reduces the risks of stacking.
- **Efficiency Advantage.** Saves time when handling pallets – reworking the stacks is no longer required.
- **Retrofittable.** Designed to fit your needs and customizable to fit your current or future work center.
- **No Energy Required.** Energy cost effective with no outside source of energy needed.

Eliminate the hassle.
Get a perfect stack every time.
