A compact and practical electric powered pedestrian operated vehicle. Suitable to work as a pusher and a tower in narrow spaces thanks to its reduced dimension.

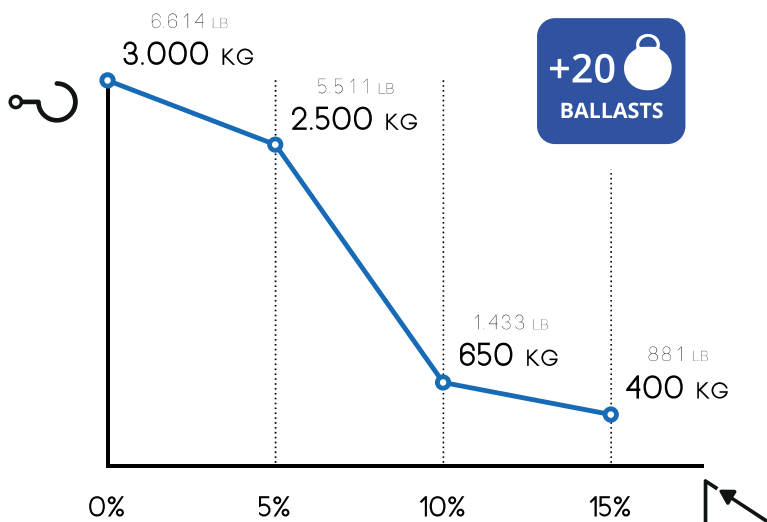

This version equipped with remote control is ideal to be used as carts pusher inside shopping centres, supermarkets and airports.

The M9 features standard and customisable hitches and ballasts making this vehicle incredibly versatile for any kind of internal or external need.

Our electric vehicles are not only CE certified but, more than 80% of the range is covered by the UL certification, which guarantees its suitability to the standards applicable in relation to potential risk of fire, electric shock and mechanical hazards.
