HT is a 3 wheel electric pedestrian operated cart that can be equipped with various type of load cages and platforms, easy to be installed and interchanged.

Ecofriendly and silent, it guarantees speed in all types of stocking and warehousing works.

This electric trolley is easy to handle, while carrying up to 500 kg / 1102 lbs, is the best solution even in narrow spaces.

The swivel tiller head is made with a safety sensor which allows to work only in the presence of assigned personnel.

The motor is equipped with an electromagnetic brake that blocks off the HT preventing accidental slipping.

HT can work in any kind of internal/external or on uneven ground situation.

Our electric vehicles are not only CE certified but, more than 80% of the range is covered by the UL certification, which guarantees its suitability to the standards applicable in relation to potential risk of fire, electric shock and mechanical hazards.
