JESPI

www.zallys.com

JESPI is a 4-wheel electric powered vehicle, created for various special applications. All sorts of equipment or containers can be assembled for multiple usage.

Equipped with many accessories, it is suitable for the cleaning of large parks and gardens; for handling material or goods stocked in pallets; for the luggage or goods transport in airports and stations; a versatile vehicle for many other work situations.

The swivel tiller head is made with a safety sensor which allows to work only in the presence of assigned personnel.

It works in any kind of internal/external or on uneven ground situation. Also available with heavy duty axles to load up to 1000 kg.

Our electric vehicles are not only CE certified but, more than 80% of the range is covered by the UL certification, which guarantees its suitability to the standards applicable in relation to potential risk of fire, electric shock and mechanical hazards.
