*Panelists:* Please introduce yourselves and provide an overview of your company, your current role, and your background

**Matt Yearling**

CEO  
*PINC*

**Melonee Wise**

CEO  
*Fetch Robotics*

**Todd Farwell**

Innovation Manager  
*Caterpillar, Inc.*

**Jason Morin**

Regional Director, Lean /  
Continuous Improvement  
*Owens & Minor*

# Questions for Panelists

*(For technology providers)*

- What applications are you seeing your technology most used today?
- Where is the market headed for your business – what can we expect as your customers?
- Describe your experiences (case studies/ business cases) that help your customers justify their investment, i.e. business problem, how you solved it, and the ultimate benefits / value delivered.
- Looking at your market and customer base today, have you targeted specific industries?

# Questions for Panelists

*(For operators, but technology providers may also answer from their perspective)*

- Broadly, what does the “distribution center of the future” mean to you?
- What technologies have you implemented or plan to implement, and why?
- How did you determine what technology(ies) have provided the ‘biggest bang for your buck’?
- How are you prioritizing digital / IoT as you roll out your “DC of the future”? What are the biggest benefits, roadblocks? What are you focused on for the future?
- How have these newer technology implementations compared to more traditional implementations in the past (such as ERP)?
- What competitive advantage, if any, do you anticipate from investment in new technologies?
- What benefits, both qualitative and quantitative, have resulted (or do you anticipate) from your investment?
