

The members of the EASE Council come from 18 different companies and represent over 50 industry segments and technologies in the material handling industry.

## Promoting Safer, Healthier, and More Productive Employees About EASE

Ergonomics is more than just a buzzword today – it is a movement. Nationally, our demographics confirm we are aging and in deteriorating physical shape. This impacts the workplace, and good employers must think of their business in terms of ergonomics. EASE is the group within MHI focused solely on making work easier for people by improving the work environment.
