

## Loading Dock Safety & Efficiency

### Features and Benefits

Increased Loading Dock Safety and Efficiency

45 Pentalift Hydraulic Dock Levelers, RVR32 Vehicle Restraints and PS-200 Dock Seals at an Industrial Products Warehouse

**Industry Group:** LODEM

A North American distributor of industrial products expanded its capacity by building a new 585,000 sq ft central distribution center. During the design process a number of manufacturers of loading dock equipment were considered, Pentalift was awarded the order based upon structural design, safety considerations and ease of user friendly product integration. The common control panel interlocks the vehicle restraint with the dock leveler. The sequence of operation creates a safety system ensuring correct procedural practices to improve safety at the loading dock area.
