Industry Group Membership & Benefits

Storage Manufacturers Association
powered by

MHI
What is SMA?

Storage Manufacturers Association (SMA) was formed in 1974 by visionary industry leaders as a Product Section of Material Handling Industry, a not-for-profit Trade Association.

As industry leading suppliers of industrial storage equipment, we supply storage solutions worldwide and in virtually every major manufacturing and distribution sector.

Mission

- Develop and promote the standards and activities to advance the quality, safety and workability for intended use of Storage Equipment.
- Educate the end-user community on the application of current and emerging technologies

Networking & Planning

Connect and network with other material handling industry professionals
- Meet with industry leaders and peers at semi-annual meetings
- Participate in round table discussions
- Access to members of the material handling
  - Media
  - Educational institutions
  - Programs
  - Resources

Industry Information

Gain valuable industry knowledge and connect with other associations and organizations.
- Participate in MHI directed market research and studies
- Slab analysis
- Industrial grade steel shelving specifications
- Industry research, data, sales statistics, and trends
- Access educational leaders and guest speakers
- Connect with industry expertise within MHI
- Increase loyalty points for participating MHI activities and programs

Codes & Standards

As a group, develop design and safety standards for the industry.
- Accredited by the American National Standards Institute (ANSI) as developer for product and safety standards
- Funded product testing, research & development
- Involved with code and fire safety entities
- Unified source of information for end users and building officials
- Ongoing standards development for the industry
- Collectively influence groups like International Code Council, NFPA and others
- Work with certified building officials to streamline building approval process from coast to coast

Education & Development

Advance your career with educational and professional development opportunities.
- Gain access to MHI library of resources
- Independent training classes
- Participate in material handling industry related sessions

Marketing & Lead Generation

Leverage MHI to advertise, promote and generate leads through marketing initiatives.
- Included on MHI website, mhi.org
- Lead contact information from online document downloads
- Library of industry documents
- MHI referrals for SMA products and services
- Co-marketing opportunities with MHI to promote our industry
- Share news about storage solutions

Consider Joining a Solutions Group

Solutions Groups bring MHI members together with equipment and systems users to address common challenges and opportunities in manufacturing and the supply chain.
- Non-commercial environment to collaborate and discuss topics of mutual business interest
- Provide a “safe harbor” for sharing information, awareness, education, best practices and lessons learned
