MAX Guard V-Nose

PROTECTION + WARRANTY

This is a robust 4" high 3/8" steel pallet rack guard. It is solid steel and not cheap plastic. It has superior impact protection from forklift damage because it is independently anchored and not bolted to the rack column. This transfers the impact energy to the floor and not to the column anchors. It is customizable to fit your needs perfectly.

MAX Guard Plus

PROTECTION + WARRANTY

This is a robust 12"-24" high 3/8" steel pallet rack guard and post protector. It is solid steel and not cheap plastic. It has superior impact protection from forklift damage because it is independently anchored and not bolted to the rack column. This transfers the impact energy to the floor and not to the column anchors. It is customizable to fit your needs perfectly.

MAX Guard Force V-Nose

PROTECTION + WARRANTY

This steel upright column guard shields the column from impact force with two independent floor anchors and 1/4" inch steel. It provides 20,000 lbs of impact resistance. Try that with plastic or bolt-on column protectors.

MAX Guard Force Non-Protruding

PROTECTION + WARRANTY

This steel upright column guard shields the column from impact force with two independent floor anchors, and 1/4" inch steel. It provides 20,000 lbs of impact resistance. Try that with plastic or bolt-on column protectors. The non-protruding version is great for low clearance aisles in your warehouse.

MAX Guard Shield

PROTECTION + WARRANTY

This steel pallet frame guard can be bolted on to the racking anywhere you need pallet rack protection in your warehouse. It is made of 1/4" steel and comes in lengths from 12"-24". Great for protection against forklifts damaging your upright columns.

End of Row Guard Round

PROTECTION + WARRANTY

These end of aisle guards are made from 1/2" thick structural steel to give maximum protection. They are independently anchored to the ground and protect the front and rear rack columns. This is the best racking corner protector you can get for your warehouse.

End of Row Guard Formed

PROTECTION + WARRANTY

These end of row guards are made from 1/2" thick steel to give maximum protection. They are independently anchored to the ground and protect the front and rear rack columns. This is the best racking corner protector you can get for your warehouse. The formed protector gives the best warehouse aisle clearance.

Dock Door Guard

PROTECTION + WARRANTY

Door Track Guards protect your valuable all too often abused overhead warehouse door tracks. These heavy gauge guards keep pallets and miscellaneous debris from damaging your tracks resulting in expensive emergency repair bills.
